A Pleasant burprise Party. A Pleasant Surprise Party.

Last evening Meanerchor Hall was occupied by a merly crowd of ladies and gentlemen, who danced until early this morning. The affair was a surprise pariy gotten up by Misses Annie Falton, Amelia Bittner and Sallie Irwin ass a compliment to Misses Mary Martin and Jennie Chambers, of Pittaburgh, who are the guests of Mrs. Dil Jacoway, of East Wheeling. Mayers' orchestra furnished the music for the dancers. The night was a little warm for such violent exercise as dancing, still the young folks did not seem to mind it, but whirled about looking as happy and contented as possible. The ladies provided light refreshments, which were served about 12 o'clock.

Narrow Escape.

Shorily before midnight last night an alarm of fire was tureed in from box No. 40, situated in the Crescent mill, to which there was a prompt response. Fortunately the services of the department were not needed, although it was only a piece of good luck that the mill was not reduced to sahes. The men had left the lower or sheet mill, and all the lights were out. The engineer on duty in the unper mill any there saw a bright blaze. It seems that one of the coal boxes or shutes manner caught fire. The blaze was leaping up the shute towards the root and in a few moments more the mill would have been burning fiercely. BELMONT DEMOCRACY

NOMINATE THEIR COUNTY TICKET

A Convention as Orderly and Harmonieu Faneral, and Just About as Lively-A Very Satisfactory Choice of Candidates, for Them-

Clerk of the Courts-W B. Cash. Auditor-Ross R. Barrett, Treasurer-Edward L Foeley. Recorder-John C. Mitchell. Commissioner—J. H. l'atterson, Infirmary Director—John White

The Democrats of Belmont county met at Beliaire yesierday to nominate candidates for the county offices to be filled at the coming county convention, including a member of the House of Representatives. A great deal of interest was taken in the gathering by Republicans and Democrats, though little it is feeling was visible during the proceedings. The town was full of strangers, all the Republican aspirants for the opposing nominations being present. The feeling among the D mocrats seemed to be anything but harmonious prior to the opening of the convention. Partizans of various candidates openly threatened revolt if their candidates were "left," and gentlemen whose real or fancied claims had been ignored in the past yowd vengeance. This state of affairs did not make the Republicans unhappy at all, but they mingled with the crowds and observed the undercurrents of sentiment with an interest akin to satisfaction. for the county offices to be filled at the com-

The delegates assembled in City Hall, anything but an attractive place to hold a convention, and were called to order about 11 of lock by R. M. Eaton, Eq. Chairman of the County Committee. He made a neat little speech, and presented Hon. Ross J. Alexander, of Bri geport, as Temporary Chairman of the convention. Mr. Alexander made some remarks calculated to inspire the crowd with enthusiasm, and the result was a sort of a stir, but the apparent liailess feeling which provailed soon settled over the gathering again.

Wm. Mcmasters, Issae Cotts and Hamilton Eaton.

Pemanent Organization—Dr. E. N. Riggs, Jas. B. Ritchey, F. M. Taggart, Hamilton Glass and Wm. Millison.

Resolutions—Col. J. F. Charlesworth, W. M. Armstrong, John Gladen, Hon. Harrey Danford a d s. B. Creamer.

Rules and Order of Business—Wm. J. Kelly, John W. Hingely, Henry Frasher, Thomas A. Mitchell and R. B. Mitchell.

A recess was then taken for dinner. Shortly after 1 o'clock the convention reassembled, and the Committee on Resolutions presented a report endorsing and reaffirming the platform of principles adopted by the Ohio Democracy at their last State Convention, and approving the State Convention and Conv

tomary rules and order of business.

A LITTLE SCHEME.

Here the fine Italian hand of Dr. John Cook, of Bridgeport, showed itself. Dr. Cook, for ressons of his own, did not want Hon. David Wagner renominated. He knew that if a vira voce vote were taken many delegates would feel like v. ting for the Hoz. David, who would go back on him if they were permitted to cast a secret ballot. The Doctor, moved that as the candidates for each office were announced they should be ballotted for before other nominations were made, and that the nominations be made by secret ballot. This was carried by 42 yeas to

made, and that the nominations be made by eccret ballot. This was carried by 42 yeas to 30 says. Before the vote was announced I M. Ritry made the point of order that the rule had been adoped by a mass Damocratic Convention, changing from a secret to an ppen ballot in conventions, and the delegates had no power to change it. The chair decided the point of order not well taken. The result was as designed by the Bridgeport diplomatist, as will transpire later in the report.

for diplomate the report of the Com-in accordance with the report of the Com-nittee on Permanent Organization, Hon-sample Clark, of Morristown, was made Permanent Chairman, with a vice-president Permanent Chairman, with a vice-president from each of the sxteen townships, and C. N. Allen, of Bellaire, and James B. Ryan, of St. Clairaville, as Secretaries. In taking his seat, Mr. Clark congratulated the Democracy on the outlook and advised the young men to always counsel with and heed the advice of the old men in the party. This advice was received with lugubrious silence by the "New Democracy," which element predominated in the convention.

THE SCHEME WORKS.

The scrieme works.

The organization completed, nominations were called for, Representative being the first position to be filled. John Francis Kelly, Esq., of Bellaire, took the floor, and in a speec neartioned the Democrats not to make any misrake. He reminded them of the faithful services of Hon. David Wagner, and placed him in nomination. His name was received with some applause. Mayor Cooper, of Bellaire, named Hon. W. S. Barton, of Colerain township, Mr. Creamer, of Mead township, nominated Isaac P. Myers, of that township, and John W. Walton, of Barnesville, in a rather tedious speech, placed the name of John S. Howard, also of Barnesville, before the convention. Applause greeted all the names, but was particularly hearty when Mr. Howard was named.

The first bailot gave Mr. Howard 38 votes, within three of the number required to nominate. Mr. Wagner had 20, Myers 12 and Barton 10. A second vote was taken, and Mr. Howard carried off the prize with 50 votes to Mr. Wegner's 22. Another hearty round of applause showed the gratification of the convention.

For Auditor, Ross R. Barrett, of St. Clairaville, Thomas G. Hyatt, of Bellaire, T. E. Bolen, of Gosben townsnip, and Myles Hart, Ir, of Smith township, compost the quantatte from which the candidate was to be chosen. Ex-Prosecuting Attorney Eaton presented Barrett with an Ingersolitan culcey, and Col. Charlesworth named Mr. Bolen, President Gallagher, of the Bellaire Council, made a characteristic speech in nominating Hyatt, and James G. Wiley con'd not be heard as he uttered the name of Hart, but the President knew whom he wanted to name and took it for granted.

For Treasurer, Mr. N. K. Kennon, of St. Clairsville, mayed that the present incumbent, E.L. Feeley be ranominated by acclamation. He accompanied the metign with a ringing little speech, but forgot to name his man until reminded of the omission, when he gracefully supplied the lagking information, amida general burs of laughter. The motion was carried with enthusiastic unanimity.

well pleased with the nominations.
Some of the Bellaire Democrats were a little
sore over the defeat of Mr. Wagner. "They

Dr. Cook and Mershal Drugan, of Bellaire,
had a Ritle difficulty, and two friends intefering, one of them, to use the expression of
an eye witness, "pasted the other on the
spout." It is believed that Mr. Starbuck, a prom ffent citizen of Barnesville, will be next week as Mr. Howard's opponent.

Geressey County Democrats.

The Democrats of Geurnsey county have nominated the following county ticket: Representative, I. A. Tannehill; Auditor, George Linn; Commissioner, M. M. Knox; Infirmary Director, J. T. Oldsam; Surveyor, D. C. Kennon; Coroner, R. B. Moore.

The Republicans are hopeful, and will elect their ticket by majorities of three thousand. The Scott Law has closed just one-balf of the saloons in Guernsey county, and turned \$8,000 into the tressury.

Several weeks ago a member of Connoil from the lower part of the city introduced into the Second Branch a resolution calling on the commit ee on ordinances to reguiate the speed of locomotives and to provide for gates and watchmen at certain street crossings on the said road. The resolution was adopted and the ordinance prepared. A number of meetings since it was taken up by the First Branch and endorsed, "laid on the table till the next regular meeting." It has never been touched since. Beveral enquiries have been made for it by the lower oranch members, but as the First Branch still held the paper nothing could be done.

The first section provides that the B. & O. R. K. compuny be required to crect gates on each side of the track at the crossings of the main line at Twenty-fourth, Chappine and Eoff streets on the south side, of a style and construction satisfactory to the Board of Public Works. It further requires the company to keep a watchman stationed at each of these crossings, and at all times when any locomotive, car or train is about to pass any of the orossings to have the gates securely closed against persons using the street and to keep them closed while traits are passing.

The second section makes it unlawful for the B. & O. Company or any of its agents to run any locomotive or train on any part of the line from the depot to the southers limit of the city at a greater speed than — miles an hour, provided that when the gates are erected and troperly guarded and closed when trains are passing, it shall be lawful to increase the speed to not more than five miles an hour from the depot to the southers limits. In section three it is provided that if any conductor, or engineer or other person in charge of any locomotive or train shall run at a greater rate of speed he is liable to a fine of not more than \$20 and not lety than \$10. Section four repeats the ordinance now in the ordinance book which provides that the B. & O. Company be required to keep watchmen stationed during the day at its tracks where they cross I wanty-forth Boff, and Thirty-fifth streets, and fit it fait to do this, trains shall not by run at a greater speed in the city limits than four miles an hour.

hour.

The numerous accidents and narrow escapes from accidents that have occurred at the Chapline and Eoff street crossings led to the offering of the resolution calling for this ordinance. Since the ordinance was drawn up a street dar less had the roar platform knocked off by being streek by a train at Chapline street.

Those Fire Department Lamps
Recently in a report of a meeting of the Cosmoil Committee on Fire Departmant, a bill for two lamps from David Kuli, Jr., & Co., was referred to. There seems to be a mistake about these lamps. Members of the Committee esserted that the bill had already been rejected four times, and Olerk Galligan said that Mr. Kull, during the Ecoles investigation had testified that these lamps were ordered by J. W. Sonnitzs. Mr. Kull, in a card sent to this paper, corrects these statements. At the time the Vigilant reel was built, Mr. Kull placed on it a pair of gold mounted lamps. At the same time a similar pair was bough for the Eighth ward reel, and it was concerning these lamps that all the racket courred, and that Mr. Kull testified that they were ordered by Squire Schutzs. Stocker from Kull by the city and paid for, and they are now on the Hope reet, though engawed with the number of the Eighth ward reel. Some time sag, during the Eccles regime, the chief ordered lamps for the United, and they were procured by Kull and put on. They are engraved "United," and anybody can satisfy himself that all the ideas about them and the bill for them are wrong by simply looking at the lamps.

nexpected Turn of Affairs at tin's Ferry Gas Well. Yesterday morning drilling was proceeding at the Martin's Ferry gas well, when, at a depth of 1,000 feet, a small flow of oil was struck. It is estimated that the oil flows from the mouth of the well at the rate of about a barrel and a half or two barrels a day. This quantity of oil, of course, would not pay for the expense of barreling ing it, let alone reward the company for the expense and trouble of drilling. The presence of the oil is not regarded as a favorable sign of success in the search for natural gas, and it is scarcely probable that a materially larger flow of oil will be encountered.

Mr. Dobbins, of the company, estimates Mr. Dobbins, of the company, estimates that it will probably be necessary to sink the well 500 feet further in order to get gas in paying quantities. The appearance of the oil yesterday caused something of a sensation, and some sanguine people thought this was the first atrike of a series of regular gushers. It has long been maintained by some people that oil might be struck here in paying quantities, but there is little in yesterday's strike to confirm this opinion.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mra. Winslow's Soothing Syrup for Children Teething. Its value is meateulable. It will relieve the poor little suff-rer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentary and diarrhoes, regulates the atomach and bowels, cures wind colic, softens the gams, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the teste, and is the prescription of one of the oldest and best fengula physicians and nurses in the United States, and is for sale by all draggits throughout the world. Price 25 cents a bottle.

The blood is the foundation of The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the only sure and quick way to drive it out is to purify and enrich the blood.

blood.

These simple facts are well known, and the highest medical authorities agree that nothing but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious. and the fron paparations interior made blacken the teeth, cause head-ache, and are otherwise injurious. BROWN'S IRON BITTERS will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from any part of the system, and it will not blacken the teeth, cause head-ache or constipation, and is positively not injurious.

Gents:—Upon the recommendation of a friend I tried Brown's laow Brytmes as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of emittent physicians, I was loth to the progress of the disease, but, to my great surprise, before my daughter had taken one bottle of Brown's linos Birrans, she began to mend and now is guite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted in the clief sizer was taking Brown's linos Birrans, responded "that is a good tonic, take it."
